

The Commission has adopted an amendment to [WAC 308-124A-110](#), 'Application for real estate examination, licensed in another jurisdiction'.

The purpose for the amendment is to authorize the Director, with the advice of the Washington Real Estate Commission to consider entering into written recognition agreements with other jurisdictions which license real estate brokers and salespersons similarly to Washington state. The recognition agreement(s) shall require the other jurisdiction to grant the same licensing process to licensees of Washington state as is offered by Washington state to licensee applicants from other jurisdictions.

The recognition agreements will include a provision that applicants must successfully pass the state law portion of the examination in compliance with Washington statute.
